Outdoor Furniture plays an essential role in our communities by adding an inviting and social atmosphere, a place to meet, socialise or rest. Inclusive Design As Standard. AGORA is designed to fulfil the UN Convention on the Rights of Persons with Disabilities (CRPD), which requires universal design principles when creating public spaces. Installing AGORA

furniture in a public area goes beyond satisfying all-inclusive design requirements. AGORA PICNIC comes in two sizes and multiple material choices, but with one aim; an opportunity for adults or children to make that al fresco moment special. The Mini is designed with a seating height suited for children.

Agora Picnic Mini - Yellow HPL

PAR4083

All boards are made of High Pressure Laminate HPL with a thickness of 17.8mm according to EN 438-6 and has a nonskid surface texture. The multilayer construction makes the boards durable and suitable for outdoor use with a high UV stability and high resistance to impacts, scratches, fire, water and humidity.

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outdoor environments and require low maintenance. Painted steel parts are hot dip galvanized before powder coating.

Powder coated top finish on top of galvanisation is processed in two steps: Light grinding and clean sweeping, powder coating - thickness 70-120 µm.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
