

Inclusive Seat, H:3.0m, 2-Chain

SW990206

Item no. SW990206-0107	
General Product Information	
Dimensions LxWxH	0x0x0 cm
Age group	5 - 12
Play capacity (users)	1
Colour options	

The rounded shapes of the Inclusive Swing Seat attract children of all ages and abilities. The self-initiated movement, the great ergonomic and the feeling of security while swinging will make children return again and again for more play.

For children who need assistance entering, or support for their seated position, the one-hand

operated harness offers comfortable grips and security. The upright swinging position allows all children eye contact with their care giver and a view of the surroundings while swinging. The thrill of social interaction is ensured by the care giver pushing the child into motion from the front or rear side of the swing seat. When swinging, children train the sensory system of

balance, focal tracking and muscle tonus. But not least, for all children, swinging is one of the most beloved play activities. Participating in the joy of swinging may be the biggest social-emotional thrill of the playground.

Inclusive Seat, H:3.0m, 2-Chain

SW990206

Inclusive Seat

Physical: balance, coordination and spatial awareness are developed when swinging. These are necessary skills for judging distances and navigating. The swinging movement trains arm, leg and core muscles. **Social-Emotional:** the upright swinging position allows children eye contact with their care giver. The seat is shaped to support varied body sizes. **Cognitive:** cause and effect understanding and thinking skills for younger children when swinging.

Harness

Physical: The harness can be operated with one hand and is clicked open and locked. The raised position of the harness allows for easy transfer in and out of the seat. **Social-Emotional:** The harness has several grip supports to ensure the feeling of security when swinging.

Inclusive Seat, H:3.0m, 2-Chain

SW990206

The inclusive swing seat made of recyclable polyethylene (PE) using 33% post consumer materials. The seat is molded in one piece and equipped with a drain hole to avoid water accumulation. The ergonomic design enables a safe and comfortable seating position.

The Harness is made of molded recyclable polyethylene (PE) made from 33% post consumer materials. The harness utilizes a stainless-steel torsion spring which makes the harness stay in in all position to secure easier entry and exit of users. the harness lock is designed with a one-handed operation slider made from stainless steel.

The front bumper is made with a core of strong polypropylene (PP) with a softer outer layer of thermoplastic rubber (TPE) and the rear bumper of 8mm thick EPDM membrane. The soft, shock absorbent bumpers with nonslip surface makes the swing seat extremely safe to use by caretakers.

Item no. SW990206-0107

Installation Information

Max. fall height	0 cm
Safety surfacing area	0.0 m ²
Total installation time	0.4
Excavation volume	0.00 m ³
Concrete volume	0.00 m ³
Footing depth (standard)	0 cm
Shipment weight	37 kg
Anchoring options	

Warranty Information

Chains	10 years
Hollow PE parts	10 years
Movable parts	2 years
PE/PP components	5 years
Spare parts guaranteed	10 years

The seats are available with chains made of either Ø6 hot dip galvanized steel with a surface treatment according to ISO1461 or with Ø6 high-quality stainless-steel chains. Furthermore, the swing seat is available with the unique KOMPAN self-starter function with four chains yolk suspension.

The KOMPAN Inclusive swing seat is available in six different color combinations to ensure it fits into any playground color style. The seats fit all KOMPAN swings with steel crossbeam in height 2,5m and 3,0m.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor such as EcoCore™ molded PE parts of 33% post-consumer recycled ocean waste.

Sustainability Data

SW990206

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
SW990206-0107	80.79	2.90	29.94

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
