M536

General Product Information

Dimensions LxWxH 4'6"x2'10"x4'3"

Age group 6m - 4

Play capacity (users) 4

Color options

Wow! The Toddler Train is a huge attraction for young children. The many crawl through and meeting options offer physical and social play. The traffic theme will spur children's imagination: where are we going on the train? This will start conversations and dramatic play. Stimulating language development in the young children. The toddlers enjoy moving their

bodies around the train. This trains the cross-coordination, which is crucial to train for toddlers. The cross-coordination supports the functions in the brain that facilitate later reading skills. Thanks to the many openings and holes, social interactions are supported from the inside to the outside. Care giver interaction is made easier, and the holes invite a nice round

of peek-a-boo. In spite of transparency, the Train still provides corners for toddlers to play den in.

M536

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. Social-Emotional: cooperation and turn-taking when passing one another. Cognitive: understanding space, shape and measurements when seeing if the body can fit through the hole.

Bench

Social-Emotional: gathering, cooperating or taking a break from play all train social skills.

M536

Floor is made of HPL with a thickness 10 mm and non skid surface texture according to EN 438-6. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

Handle is made of polypropylene PP with excellent impact strength and usable within a large temperature span.

Item no. M53601-3418P				
Installation Information				
Max. fall height		1'7"		
Safety surfacing area		213ft²		
Total installation time		5.5		
Excavation volume	0.	12yd³		
Concrete volume		0yd³		
Footing depth (standard)		2'0"		
Shipment weight	2	78lbs		
Anchoring options	In-ground	•		
	Surface	•		
Warranty Information				
EcoCore HDPE	Lif	etime		
HPL decks	15	Years		
Movable parts	2	Years		
Spare Parts Availability	10	Years		

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCoreTM panels of 100% post-consumer recycled ocean waste.

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

Sustainability Data

Cradle to Gate A1-A3	Total CO₂ emission	CO₂e/kg Recycled materials	
	kg CO₂e	kg CO₂e/kg	%
M53601-3418P	155.65	1.75	58.09

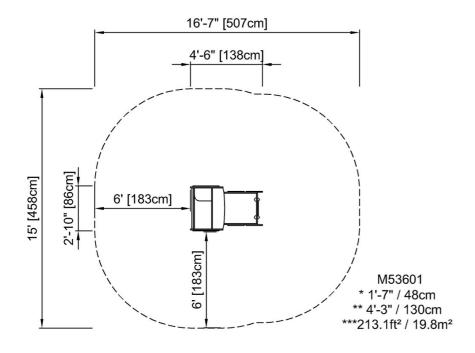

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
