

Fairy Tale Seesaw

M176

Item no. M17601-01P

General Product Information

Dimensions LxWxH	3'7"x10'9"x3'3"
Age group	2 - 5
Play capacity (users)	10
Color options	●

The Fairytale Multi Seesaw hugely motivates children to join in play, rocking together. The spacious design and sturdy back and foot support allow for many children of all abilities playing together. The risk seekers can stand on the middle platform securely, sensing the movement of the others. The spacious platform also allows for socializing, and children lying or

sitting. There is room enough for caregivers, too. The seats at the end are big enough for older children as well as adults. The fun thrill of rocking, individually, in small or in big groups, will make children return for more. Rocking on the Fairytale Multi Seesaw trains the children's muscles and motor skills, their balance and coordination. The spaciousness of the seesaw

supports development of social-emotional skills, e.g. cooperation, consideration and turn-taking. Toddlers experience cause-and-effect understanding.

Fairy Tale Seesaw

M176

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Double seating option

Social-Emotional: the possibility of rocking together supports cooperation skills. Furthermore, the physical contact with others is great for the well-being of children, measurable in lower cortisol (stress hormone) levels.

Rocking spring

Physical: response to movement increases spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Foot support

Physical: the possibility of footrest supports intense rocking. Rocking stimulates the senses of balance and space that are fundamental in managing the world securely.

Handhold

Physical: the vertical handgrips ensure a firm grip at different heights, necessary for rocking intensely. This trains hand and arm muscles.

Center platform

Physical: supports agility, balance and coordination when standing, using leg and core muscles, building bone density when jumping. Facilitates sitting and lying also, allowing for users with disabilities. **Social-Emotional:** provides an inclusive space. Point for gathering and for caregivers assisting. Teamwork and socializing when rocking together.

M176

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

Handles are made of polypropylene PP with excellent impact strength and usable within a large temperature span.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

Platform and seats are made of HPL with a thickness of 17.8mm with a very high wearing strength and a unique KOMPAN nonskid surface texture.

Item no. M17601-01P	
Installation Information	
Max. fall height	3'3"
Safety surfacing area	351ft²
Total installation time	8.3
Excavation volume	0.2yd³
Concrete volume	0yd³
Footing depth (standard)	1'5"
Shipment weight	595lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
HPL seat	15 Years
Spare Parts Availability	10 Years
Springs	5 Years

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
