

# LINCOLN Play & Stay

PCX0003

Item no. PCX000300-0602	
General Product Information	
Dimensions LxWxH	481x230x110 cm
Age group	2 - 5
Play capacity (users)	10
Colour options	  

The LINCOLN Play Tunnel with Play Panel, Desk and Balance Beam is a nice ground level activity with great play value. It stimulates all 4 competences of children's development: physical, social-emotional, cognitive and creative. When crawling through the tunnel and walking on the balance beam children stimulate their cross coordination and balance. Both are

important for children's ability to concentrate and pay attention. Learning about geometric shapes and numbers as well as playing with the tube and desk allow for cognitive and creative stimulation when exploring and understanding cause and effect. The different activities invite many children to play together, stimulating social skills such as listening,

sharing and cooperating.

PCX0003

## Balance beam

**Physical:** trains the sense of balance, fundamental for all other motor skills that makes it possible to navigate the world confidently and securely. **Social-Emotional:** turn-taking skills and negotiation when crossing each other on the beam. Room for a seated rest and exchange.

## Desk with bowl and sieve

**Social-Emotional:** children can gather and store materials, cooperate and take a break together. **Creative:** sand can be shifted through the sieve, for understanding of cause and effect and object permanence.

## Tunnel

**Physical:** the children crawl through the tunnel, developing motor skills such as cross-body coordination and proprioception. **Social-Emotional:** turn-taking when passing each other.

## Play panel

**Social-Emotional:** communication, listening, sharing when exploring panel with friends. **Cognitive:** stimulate children's language skills and knowledge of numbers and geometric shapes. The passing of materials through funnels supports the children's logical thinking and for younger children the understanding of object permanence: that materials don't vanish, but run through at the other end.

PCX0003

All steel components are made of high quality materials. The posts have an alloy with improved tensile and yield strength according to the NYCP material specification. The painted aluminum post caps are riveted to the top of the post.

All panels and one-piece welded steel grids are made of low carbon steel and corrosion treated by hot dip galvanization or metallization with a minimum thickness according to NYCP material specification.

The product is designed in three different standard color combinations: Red and light blue, Light blue and lime green, Green and lime green. The layouts of the play structures can be customized through the KOMPAN Variant Team.

Item no. PCX000300-0602	
Installation Information	
Max. fall height	39 cm
Safety surfacing area	35.7 m²
Total installation time	8.4
Excavation volume	0.13 m³
Concrete volume	0.05 m³
Footing depth (standard)	60 cm
Shipment weight	361 kg
Anchoring options	In-ground ✓
Warranty Information	
EcoCore HDPE	Lifetime
HDG post	Lifetime
HPL decks	15 years
Ropes & nets	10 years
Spare parts guaranteed	10 years

# Sustainability Data

PCX0003

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
PCX000300-0602	722.53	2.70	49.21

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
