

# Talk & Tumble with Net

PCM000421

Item no. PCM000421-0601

**General Product Information**

Dimensions LxWxH	413x309x106 cm
Age group	6m+
Play capacity (users)	14
Colour options	

Wow! The Play and Stay immediately attracts young children. The variety of play activities will ensure long and lively play times again and again. The scale is perfectly suited to the play of young children. The diverse spaces offer physical, social-emotional, cognitive and creative play for infants and toddlers. The hammock adds a gentle swinging experience,

alone or in a group. The rich variety of play panels support climbing, crawling through and explorative play. There are opportunities for playing peek-a-boo behind the panels. This is fun learning experience where infants discover that people and objects can disappear and reappear behind walls and through windows and doors. Play and Stay is a space creator

that motivates and encourages play.

PCM000421

## Sand scoops

**Physical:** hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation due to the two-sidedness and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

## Megaphone

**Social-Emotional:** inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

## Hammock

**Physical:** coordination and sense of balance when swaying. **Social-Emotional:** meeting, pushing friends gently back and forth, turn-taking. **Cognitive:** for toddlers cause and effect understanding.

## Climbing net

**Physical:** children develop cross-body coordination and muscle strength when climbing. The big meshes allow for climbing and crawling through, supporting proprioception and spatial awareness. **Social-Emotional:** the big meshes allow for more children to sit together and talk.

## Keyhole flap

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** tactile variation helps children to understand the characteristics of different materials and their uses. Cause and effect understanding when bending rubber flap.

## Door opening

**Physical:** encourages running or crawling through, stimulating cross coordination and spatial awareness.

## Binoculars

**Cognitive:** the binoculars set a tangible theme and thus spur dramatic play. Dramatic play is a great trainer of language and communication skills. **Creative:** the binoculars can be turned in all directions. Looking through them gives a new perspective on the world.

PCM000421

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

Main posts with hot dip galvanized steel footing are available in different materials: Pressure impregnated pine wood posts. Pre-galvanized inside and outside with powder coated top finish steel posts. Lead free aluminum with color anodized top finish. Greenline TexMade posts of 95% post-consumer recycled PE and textile waste.

Hammock seat is made of PUR. All components retain their properties in the temperature range of -30°C to 60°C. All materials are UV stabilised to a maximum without use of heavy metal stabilities.

Item no. PCM000421-0601

## Installation Information

Max. fall height	99 cm
Safety surfacing area	26.4 m²
Total installation time	8.0 hours
Excavation volume	0.15 m³
Concrete volume	0.04 m³
Footing depth (standard)	60 cm
Shipment weight	136 kg
Anchoring options	In-ground ✓ Surface ✓

## Warranty Information

EcoCore HDPE	Lifetime
Membrane	2 years
Post	10 years
Ropes & nets	10 years
Spare parts guaranteed	10 years

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

Play activities like the Megaphone are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength and is UV stabilised.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor such as EcoCore™ panels of +95% post consumer recycled ocean waste.

# Sustainability Data

PCM000421

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
PCM000421-0650	229.26	1.94	73.22
PCM000421-0601	255.86	2.40	65.41

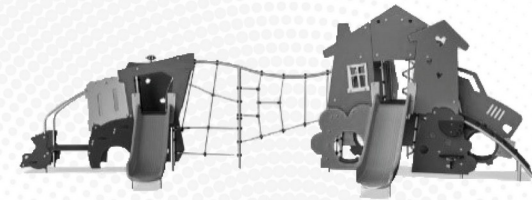

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Themed play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
