KOMPANI
Let's play

Despite a compact footprint, the Super Combi 1 offers a lot of exercises for all muscle groups and difficulty levels. The step platforms are excellent for jumping, leg strength, and cardio exercises. The rings can be used for upper body strength exercises, stretching, and fun exercises like "skin the cat". The rope is designed for rope climbing training, with

features that make it accessible to non-athletes as well. There is also a target shoot for fun slam-ball exercises. Finally, we have universal parallel bars that stimulate exercise creativity and can be used directly by wheelchair users.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
