The Jump Pod Set includes three pods of progressing heights of 4, 12" and 24". When you combine these heights and arrange them at varying distances, they are a great addition to any obstacle course. The materials for the surface of the pods are carefully chosen to provide a textured and stable surface, even when it is wet."

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
