The multi-layered and colorful play invitation of the FunPoint, Ultimate attracts children immensely. With richly varied play activities, the FunPoint, Ultimate invites children to explore and try out the many sensory play activities for longer durations. The mix of membranes and hammocks for seating stimulates meetings and supports social-

emotional development: The hammock provides a nice body pressure, and combined with the gently swaying movements, this provides a soothing atmosphere. The gently swaying hangout pod is another fine meeting point. Apart from their soothing effect, the gently swaying movements also train the sense of balance. The FunPoint, Ultimate offers

multiple tactile, visual and auditive sensory play items, with drums, moirée effect panels and not least a two-color, Drawing wall. This can be used to create patterns and leave signals. All in all, the FunPoint, Ultimate is a highly social space, that also offers room for individual play pursuits.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
