PCX701

This meeting point allows for groups of children having a break while seated in the setting. The space allows groups of different sizes to meet, interact and socialize. As it is always popular within school age children to hang out in bigger groups with their friends, and this meeting point will automatically attract teenagers to join the playground. The varied framework of benches

with and without roof and back support allow for different sorts of seating positions and cater to users of various ages and abilities. By attracting bigger groups, this space invites many children to socialize and interact, particularly children with different ages and abilities This will support their ability to learn about themselves, others and the world around

them when sharing and listening.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
