

Embankment Slide, 6.6ft high, 5ft wide

KSL30503

Item no. KSL30503-0401	
General Product Information	
Dimensions LxWxH	11'7"x5'1"x3'2"
Age group	2 - 12
Play capacity (users)	2
Color options	

The extra wide Embankment Slide is extremely attractive. It makes children loop uphill and slide down again and again. The Embankment Slide will be a main attraction in the playground. Apart from the immense thrill of sliding, the Embankment Slide also helps children develop essential motor skills such as a sense of balance and space. These are

important in managing the world confidently and securely. The repeated loop of sliding and running back up is excellent training for cardio and muscle strength. The extra width adds a highly desirable rough-and-tumble element when friends go down the slide together. This is a social-emotional benefit, which is further enhanced by the cooperation skills that

children use when they slide together. The extra width allows for caregivers to join in play.

Embankment Slide, 6.6ft high, 5ft wide

KSL30503

Wide slide

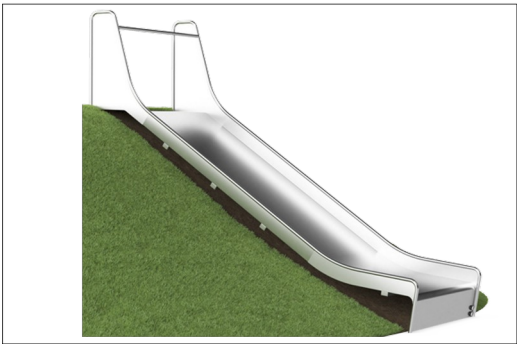

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** invites socializing, supports parent-child and peer-to-peer play.

Cognitive: young children develop their understanding of space, speed and distances when sliding down quickly.

Embankment Slide, 6.6ft high, 5ft wide

KSL30503

The stainless steel components are made of high quality stainless steel in compliance with global playground standards. The steel is glass blasted after manufacturing to ensure a smooth gliding surface.

At 35°, the slide is set to the optimum angle to ensure both gliding fun and safety.

Catering to different terrains, the embankment slides are available in 9 lengths from 1 - 3m.

Item no. KSL30503-0401	
Installation Information	
Max. fall height	3'4"
Safety surfacing area	146ft²
Total installation time	7.2
Excavation volume	1.52yd³
Concrete volume	0.97yd³
Footing depth (standard)	3'7"
Shipment weight	933lbs
Anchoring options	In-ground ✓
Warranty Information	
Spare Parts Availability	10 Years
Stainless steel slide	10 Years

Elevated activities	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present			
Required			

ASTM
F1487
compliant

Sustainability Data

KSL30503

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
KSL30503-0401	968.04	4.20	49.98

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of:
Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
