| Age group | 6m+ |
| Play capacity (users) | 6 |
| Color options | • |

This appealing sandpit invites children to play for long periods of time. Thanks to the four red seats or tables, the play gets diversity: the children have a firm plate to place sand tools and sand creations on. Carers have seats, and more parents can be seated facing the sandbox. This is Well-known to facilitate longer stays. The four seats additionally give children the possibility of creating each their space, from where they can have their home, their shop, their workshop. Sand invites deep play. The changeable character of sand from when dry to when wet fasciNates children. It additionally trains their tactile sense and understanding of material character and nature phenomena. These are important life skills that help the child understand the surrounding world. In short, sand play shapes motor skills and cognition.

Data is subject to change without prior notice.

Sandpit

BASIC550

Sandpit

Cognitive: sand play trains the sense of touch and helps children to understand the characteristics of different materials and their uses. Sand can be sieved when dry and shaped when wet.

Seat Social-Emotional: offers a point for retraction and a point for meeting and sharing.

Sandpit

BASIC550

Seats of 19mm EcoCore[™]. EcoCore[™] is a highly durable, eco-friendly material, which is not only recyclable after use, but is also made of +95% recycled post-consumer material from e.g., food packing waste in both core and colorful outer layer. Side panels are made of HPL with a thickness 17,8 mm. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
