

Mega Deck Upper Deck

PCM111021

The Mega Deck with Upper Deck attracts a multitude of children to play together, for a long time, again and again. It is roomy and sturdy enough to facilitate parents and care givers that join their children in play. The unit offers a wide variety of activities as well as graded play accesses: varied climbing outside as well as inside the structure adds to the joy and train

the children's spatial awareness, proprioception and muscles. These motor skills and muscles are all important to navigate the world securely outside the playground. The many ground level activities create areas for retraction and quieter play. From the various upper levels, great views, as well as varied gliding and sliding, offer a thrill. This is what makes children loop

the play unit again and again: up the unit, down the slides.

Balcony

Social-Emotional: the balcony invites meetings and interaction with people on ground level. **Cognitive:** invites dramatic play and performance, which stimulates language development.

Slide

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Banister bars

Physical: supports coordination, arm and core muscles. Landing strengthens bone density. **Social-Emotional:** turn-taking and risk-taking.

Tower net

Physical: the children have a fast access up the horizontal rungs, and a slower climb up the sloping rungs. The net can be climbed from both sides. **Social-Emotional:** the two-sided net allows for social interaction. The spaciousness invites socialising. **Cognitive:** logical thinking when planning how to best enter the platform from the net.

Timer

Social-Emotional: teams can each have a button to measure rounds, wins etc. The buttons support cooperation and teamwork. **Cognitive:** counting and registering support thinking skills such as logical thinking and sequencing. **Creative:** children can leave their mark, placing the timer in different positions.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.
