is crucial to train for toddlers. Crosscoordination supports the functions in the brain that facilitate later reading skills. Thanks to the semi-open sides and the doorways and window holes, social interactions are supported from the inside to the outside. Caregiver interaction is also made easier, and the holes invite a nice round of peek-a-boo. In spite of transparency,

the Carriage still provides corners for toddlers to play in.

The traffic theme will spur children's imagination: where are we going on the train? The toddlers enjoy moving their bodies around the train. This trains cross-coordination, which

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
