

Tower with Track Ride

PCM114121

Item no. PCM114121-0951	
General Product Information	
Dimensions LxWxH	869x690x412 cm
Age group	6+
Play capacity (users)	13
Color options	

The Tower with Track Ride offers varied physical and social play for school age kids, with dare devil as well as socialising activities. Gliding through the air on a wire is immense fun for school age kids, which attracts them to try again and again and play for longer. If the Track Ride gets too demanding, a step up from the platform gives the child access to a nice

curved slide, offering a thrilling ride to the ground level. This slide can also be accessed via the rappelling access: a challenging and fun climb that demands full concentration and focus on cross-coordination, balance and muscles. Under the platform, a break can be had with a friend, seated opposite one another on the two swaying hammocks, or alternatively,

playing with the fascinating hourglass in the panel under the platform.

Tower with Track Ride

PCM114121

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options. The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface.

Main posts with hot dip galvanized steel footing are available in different materials: Pressure impregnated pine wood posts. Pre-galvanized inside and outside with powder coated top finish steel posts. Lead free aluminum with color anodized top finish. Greenline TexMade posts of 95% post-consumer recycled PE and textile waste.

Item no. PCM114121-0951	
Installation Information	
Max. fall height	178 cm
Safety surfacing area	54.6 m ²
Total installation time	25.1
Excavation volume	0.89 m ³
Concrete volume	0.10 m ³
Footing depth (standard)	90 cm
Shipment weight	872 kg
Anchoring options	Surface ✓ In-ground ✓

The slides can be chosen in six different colors and three materials: Straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials in different colours. Combined EcoCore™ sides and stainless-steel. Full stainless steel in one piece design for more vandalism proof solutions.

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor. TexMade post, EcoCore™ panels of 95% post-consumer recycled waste and molded PP decks.

Sustainability Data

PCM114121

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
PCM114121-0951	1,266.90	2.02	63.50
PCM114121-0905	1,465.80	2.59	53.10

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
