

# Creative Workshop

MSC5408

The creative workshop is a stimulating room divider which offers space for manifold activities, among others due to its two counters for sand play or the toddlers' own play props. Tactile elements are added to further increase the play value.

Item no. MSC540800-3417P	
General Product Information	
Dimensions LxWxH	175x82x124 cm
Age group	6m+
Play capacity (users)	4
Colour options	

# Creative Workshop

MSC5408

## Funnel

**Social-Emotional:** trains cooperation and turn-taking as children put materials into the funnel. **Cognitive:** the passing of materials through funnels supports the children's logical thinking and for younger children the understanding of object permanence: that materials don't vanish but run through at the other end.

## Desk

**Social-Emotional:** fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

## Themed element

**Cognitive:** set a tangible theme and thus spur dramatic play. Dramatic play is a great trainer of language skills.

## Play sphere

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

## Crawl-through hole with curtains

**Physical:** the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when playing with friends on the other side. **Cognitive:** understanding of object permanence: things can disappear without being gone forever – a thrilling insight.

## Gear wheels

**Social-Emotional:** cooperation skills and turn-taking are supported when turning the gearing wheel. **Cognitive:** cause and effect understanding, and logical thinking are supported.

MSC5408

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Straps are made of soft and bendable woven bands. Base material is PP which has good wearing and impact resistance.

Item no. MSC540800-3417P

## Installation Information

Max. fall height	0 cm
Safety surfacing area	14.0 m²
Total installation time	4.9 hours
Excavation volume	0.13 m³
Concrete volume	0.00 m³
Footing depth (standard)	60 cm
Shipment weight	47 kg
Anchoring options	In-ground ✓ Surface ✓

## Warranty Information

EcoCore HDPE	Lifetime
Hot dip galvanised steel	Lifetime
Movable parts	2 years
Spare parts guaranteed	10 years

Sand pipe is made of PP. PP has good wearing and impact resistance.

Play spheres are made of PP. PP has good wearing and impact resistance.

Sand strainer is made of high-quality stainless steel to ensure durability of the product.

# Sustainability Data

MSC5408

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
MSC540800-3417P	97.81	2.19	72.24

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Themed play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
