Infants and toddlers are drawn to the cute floral theme of the Toddler Spica. The rotating movement is a delightful and even thrilling play activity. The Spica's unique base gives the children the choice of sitting or standing, either of these train the vestibular system, the senses of space and balance. Confidence in movement helps the child in other aspects of

development, for instance in socialisation: being able to keep up with the others. In concentration skills: being able to focus on other things than keeping your balance. With room for more than one child, the Spica supports cooperative play and social play, that will help children to make friends.

## Seat

**Physical:** stepping up, jumping down develops muscle and motor skills. **Social-Emotional:** meeting, sharing and having a break.

## Pole

**Physical:** more gripping or leaning support points when standing, sitting, hanging holding tight and spinning.

## Internal ball-bearing spinner

**Cognitive:** logical thinking, figuring out how to make the spinner work with gravity, not against it.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The toddler Spica bearings are installed within a one-piece bearing house with integrated drain holes for water passage. The two large steel bearings are fully closed and have lifetime lubricated.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
