

Rumba Backrest 60° Inside

PAR1034

Item no. PAR1034-21

General Product Information

| | |
|-----------------------|---|
| Dimensions LxWxH | 132x104x44 cm |
| Age group | - |
| Play capacity (users) | - |
| Color options |  |

RUMBA comes with endless possibilities to realize seating in customized design for all outdoor environments. RUMBA is the most flexible way of marrying seating solutions to the environment, in perfect harmony - geometry meets geography. Built around simple circles and curves, they can be adapted to provide custom-built twists and turns. The standard

available benches and tables can be dressed up with back supports, armrests, tables etc. and linked together into tailored solutions for the individual location.

Rumba Backrest 60° Inside

PAR1034

Boards are made of ash wood from sustainable European sources. The ash wood is thermo treated according to CEN/TS 15679, durability class 2 according to EN350-2.

Boards are made of pine wood from sustainable European sources. The wood is pressure-impregnated according to EN335:2013, Class 3 (Equivalent to NTR Class AB). On request it can be supplied as FSC® Certified (FSC® C004450).

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outdoor environments and require low maintenance.

| Item no. PAR1034-21 | |
|--------------------------|---------------------|
| Installation Information | |
| Total installation time | 0.7 |
| Excavation volume | 0.00 m ³ |
| Concrete volume | 0.00 m ³ |
| Footing depth (standard) | 0 cm |
| Shipment weight | 19 kg |
| Anchoring options | |

The standard available benches and tables can be dressed up with back support, armrests, tables etc. and linked together into tailored solutions for the individual location.

The benches and tables can be combined in multiple settings by choosing individual products or assembled into larger solutions. See catalogue pages for more inspiration.

The hardware is made of stainless steel or galvanized steel to ensure durable connections with a high corrosion resistance.

Sustainability Data

PAR1034

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO ₂ e/kg | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
| | kg CO ₂ e | kg CO ₂ e/kg | % |
| PAR1034-21 | 22.72 | 1.39 | 24.14 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
