M951

The soft blue rubber hammock seat of the Sunflower supports the child's body in a short swinging movement when lying on the stomach, sitting on the knees or being seated. This gives the 1-4-year-olds the opportunity of swinging with no adult assistance. The sunflowers on the swing posts signal play from far away and can be turned by older children or

adults.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
