

# Moments Sign XL, TexMade™ Posts

PCM207

Item no. PCM207-0950	
<b>General Product Information</b>	
Dimensions LxWxH	3'6"x0'4"x7'1"
Age group	
Play capacity (users)	
Color options	

With the KOMPAN signage concept, customizable signs can be created for all kinds of outdoor activity areas. Signs are essential to making relevant and prescribed information available for users in private or public places. For example, signs can provide general or practical information or instructions about using a playground, opening hours, ideal user/age

groups, sponsors, contact information, etc.

The customizable signage concept is flexible in using text, signs, and symbols to communicate a message. Selected products with low carbon emissions are available in GreenLine versions, made mainly from post-consumer ocean waste.

# Moments Sign XL, TexMade™ Posts

PCM207

Main posts with hot-dip galvanized steel footing are available in different materials: Pressure impregnated pinewood posts. Pre-galvanized inside and outside with powder-coated top finish steel posts. Lead-free aluminum with color anodized top finish. Greenline TexMade posts of 100% post-consumer recycled PE and textile waste.

High-quality polycarbonate with a thickness of 8mm. The graphic prints are added by a unique multi-layer print process where the inner layer is the image and outer transparent layer functions as protection. Both PC panel and the water-based lacquer are UV stabilized to prevent fading.

Item no. PCM207-0950	
Installation Information	
Total installation time	2.2
Excavation volume	0.08yd <sup>3</sup>
Concrete volume	0yd <sup>3</sup>
Footing depth (standard)	2'9"
Shipment weight	330lbs
Anchoring options	In-ground ✓
Warranty Information	
Polycarbonate PC panels	10 Years
Post	10 Years
Spare Parts Availability	10 Years

# Sustainability Data

PCM207

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>PCM207-0950</b>	479.96	3.86	38.58

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
