The Robinia Percussion Music Panel is a play invitation for children: the variation in drumming sounds and the tonal response to movements attract children again and again. The drums can be played alone or together. There is room for many users around the differently textured and sounding drums. This encourages social interaction and co-creation when drumming

rhythms and singing along. It also stimulates cognition and creativity as children create rules and rhythms together or individually. The percussion drum additionally has different sounding divisions. For older children and adults this creates variations in tonality and sound patterns. Drumming and creating rhythms on the drums stimulate the child's

ability to understand cause and effect and leave a mark on the play, both important for cognitive as well as creative skills.

Percussion

Social-Emotional: cooperative play and co-creation when playing from both sides.

Cognitive: understanding cause and effect when figuring out different sounding areas of surface, and practicing rhythm that is essential for pre-reading skills. **Creative:** creating, combining and leaving a mark of different sounds.

Two sides

Social-Emotional: invites cooperation and communication. The low height and the transparency of the panel makes interaction possible between the two sides.

Drums

Social-Emotional: cooperation and co-creation, parallel and group play. **Cognitive:** cause and effect understanding when creating sounds, supporting a sense of rhythm that is essential for pre-reading skills. **Creative:** creating and leaving a mark with sound.
