

Double Tower with Valley Bridge

NRO2004

Item no. NRO2004-1021	
General Product Information	
Dimensions LxWxH	734x620x417 cm
Age group	6+
Play capacity (users)	22
Color options	

Hugely irresistible with its wide variety of play activities. The fun and scaled play challenges make children want to play for a long time and come back again and again. The wonderful coconut rope slopes upwards, swaying gently as the children balance their way up or down, naturally cooperating on staying stable on the sloping rope. The two climbing nets require

gradual experience when entering the tower. The high tower also has climbing steps on one side. Climbing is a great training exercise for muscles as well as motor skills such as cross-body coordination. This again trains cross-modal perception which is necessary e.g. in reading. The rotating gliding movement on the curly climber apart from being joyful, trains the

motor skills that prepare the child for important life skills such as secure navigation of space, for instance in traffic. A wonderful graded play combination.

Double Tower with Valley Bridge

NRO2004

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmental friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Item no. NRO2004-1021

Installation Information

Max. fall height	300 cm
Safety surfacing area	68.6 m ²
Total installation time	39.0
Excavation volume	2.82 m ³
Concrete volume	1.24 m ³
Footing depth (standard)	100 cm
Shipment weight	1,658 kg
Anchoring options	In-ground ✓

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

Sustainability Data

NRO2004

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO2004-1021	896.40	0.59	5.60

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
