Sign Medium

PAR3003

With the KOMPAN signage concept it's possible to create customisable signs for all kinds of outdoor activity areas. Signs are an important way to make relevant and prescribed information available for the users of private or public areas. E.g. general or practical information or instructions about the use of a playground, opening hours, ideal user/age

groups, sponsors, contact information etc. KOMPAN's customisable signage concept is flexible in the use of text, signs and symbols to communicate a message.

General Product Information

Dimensions LxWxH 61x5x105 cm
Age group
Play capacity (users)

Colour options

Sign Medium

PAR3003

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outdoor environments and require low maintenance.

High-quality polycarbonate with a thickness of 8mm. The graphic prints are added by a unique multi-layer print process where the inner layer is the image and outer transparent layer functions as protection. Both PC panel and the water-based lacquer are UV stabilized to prevent fading.

	Item no. PAR3003-0601				
	rmation				
	Total installation time		0.6		
	Excavation volume	0.1	11 m³		
	Concrete volume	0.00 m³			
	Footing depth (standard)	ard) 60 cm 21 kg			
	Shipment weight				
	Anchoring options	In-ground	~		
		Surface	~		
	Warranty Information				
	Hot dip galvanised steel	Lifetime			
	Polycarbonate PC panels	10 y	ears/		
	Spare parts guaranteed	10 y	/ears		

Sustainability Data

PAR3003

Cradle to Gate A1-A3	Total CO ₂ emission	CO₂e/kg Recycle material	
	kg CO₂e	kg CO₂e/kg	%
PAR3003-0601	50.57	3.00	44.20

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Kompan A/S

C.F. Tietgens Boulevard 32C DK-5220 Odense SØ Denmark

Verification of CO₂ calculation of: Park

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Park" represented by item no.: PAR4070-0001.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
