

Pavo

GXY901

Item no. GXY901012-3717	
General Product Information	
Dimensions LxWxH	13'1"x15'7"x8'8"
Age group	5 - 12
Play capacity (users)	12
Color options	

Life skills condensed in play: the dense play challenge of Pavo attracts bigger children immensely. Their urge for physical and social action is rewarded when they start exploring play on Pavo. The climb, cling onto, hang and sway through responding play activities train the bigger children's motor skills ABC: agility, balance and coordination. The Jacob's ladder

twists at step three, demanding a change in rhythm, pace and spatial thinking of climbing. This is a great event for bigger children to enjoy. The Climbing wall offers wall climbing with professional cleats, training dexterity. The wobbly Rocking Tube is a fantastic trainer of muscles and motor skills, such as cross-coordination. Finally, the Play Shell is a swaying

place for a social break. The amazing, swaying seat is very attractive and encourages turn-taking skills and socializing.

Pavo

GXY901

Curved climbing wall

Physical: children develop their cross-body coordination, proprioception and leg, arm and hand strength. Climbing on a curved surface is an extra challenge to muscles.

Rocking tube

Physical: muscle strength, balance and coordination when climbing up and down, rocking and holding tight.

Jacob's ladder

Physical: cross coordination and spatial awareness as well as upper body muscles when hanging with arms. This is especially important due to the sedentary lifestyles of today's children. **Social-Emotional:** turn-taking and cooperation. **Cognitive:** logical thinking when going from 2nd to 3rd step, changing feet.

Rope ladder

Physical: cross coordination is supported when children climb the ladder. The climbing also trains leg and arm muscles.

Play shell

Physical: the swaying movement stimulates the sense of balance, necessary to sit still on a chair. **Social-Emotional:** meeting, taking a break and turn-taking are supported, skills necessary to learn how to avoid conflicts.

Pavo

GXY901

The steel surfaces of GALAXY are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outside environments and requires low maintenance.

The unique designed GALAXY connection ball is made with an inner circular core of aluminium surrounded by a shell of hard PP with a outer layer of soft TPV rubber. Flexible lead free aluminium connectors allow for installation in variable angles.

Larger activities are made of 100% recyclable PE. The play shell displayed is molded in one piece with a minimum 5mm wall thickness. PE has high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

Item no. GXY901012-3717	
Installation Information	
Max. fall height	8'3"
Safety surfacing area	485ft ²
Total installation time	12.6
Excavation volume	3.43yd ³
Concrete volume	1.28yd ³
Footing depth (standard)	2'11"
Shipment weight	834lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Galaxy connection ball	5 Years
Hot dip galvanized steel	Lifetime
PUR components	10 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years

The curved climbing wall is made of a steel frame supported Ekogrip® panel with unique designed climbing cleats. The Ekogrip® panel consist of a 15mm thick PE base with 3 mm top-layer of rubber with a non-skid effect.

Colored steel components has a base of hot dip galvanization and a powder coated top finish. This provides an ultimate corrosion resistance in all climates around the world.

Galaxy products are available in different color combinations with either hot dip galvanized steel surface treatment or optional with powder top finish of selected steel components. Colors of the activities are adjusted to support the individual color combination.

Sustainability Data

GXY901

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
GXY901012-3717	1,009.72	3.05	36.46

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Challengers & Climbers

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Challengers & Climbers" represented by item no.: BLX410301-3717.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
