

Baby Seat, 8 ft

SW990023

Item no. SW990023-00	
General Product Information	
Dimensions LxWxH	2'1"x1'3"x0'0"
Age group	2 - 5
Play capacity (users)	1
Color options	

The sturdy baby seat of the Baby Seat Swing is an irresistible invitation for infants and their caregivers. The swinging motion of the Baby Seat Swing will make infants want to go again and again. There are several benefits of the attraction: firstly, the swing seat supports the seated infant all around so that the feeling of security is guaranteed. Secondly, the rubber

seat is placed in a good height for the infant to be in eye level with children. The swinging motion trains the child's motor skills, specifically the sense of balance and space. Seated while swinging also trains the core muscles. All of these physical skills are fundamental to the infants ability to walk and navigate the surroundings securely. The action

also stimulates the understanding of cause and effect and thinking skills. Socially, swinging and getting pushed in the swing seat by parents, caregivers or siblings is great fun.

Baby Seat, 8 ft

SW990023

Toddler swing seat

Physical: balance, coordination and spatial awareness are developed when swinging.

These are necessary skills for judging distances and navigating. **Social-Emotional:** feeling of security from support. **Cognitive:** understanding of cause and effect.

Baby Seat, 8 ft

SW990023

The baby seat is a two component seat with a PP inner core and outside rubber, produced in one operation. The seat is available with swing chains of either hot dip galvanized steel or stainless steel.

Item no. SW990023-00	
Installation Information	
Max. fall height	7'11"
Safety surfacing area	170ft²
Total installation time	0.1 hours
Excavation volume	0yd³
Concrete volume	0yd³
Footing depth (standard)	0'0"
Shipment weight	13lbs
Anchoring options	
Warranty Information	
Chains	10 Years
Spare Parts Availability	10 Years
Swing seat	10 Years

Sustainability Data

SW990023

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
SW990023-00	23.98	4.55	22.79

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
