

# Playhouse with Desk

PCM001621

This activity packed, home-themed playhouse will attract and excite toddlers again and again. There are three features that make this playhouse unique; the scale of the house is perfect for toddlers, the flower window adds to the overall transparency so that children can play together from the outside and the inside of the house and the shop counter desk features

a conveyor belt made of small wheels, providing a great tactile sensation. These sensory elements stimulate cross-modal perception, important for improving reading skills. The sand scoop panel has two scoops that can be filled, emptied and moved in tracks. This trains logical thinking, such as the understanding of cause and effect. The scoops

can work from both sides of the panel encouraging cooperation and turn-taking, both important for making friendships.

Item no. PCM001621-0601	
General Product Information	
Dimensions LxWxH	3'8"x3'6"x6'1"
Age group	6m - 5
Play capacity (users)	4
Color options	  

# Playhouse with Desk

PCM001621

## Window

**Social-Emotional:** invites interaction between sides and cooperative play.

## Theme

**Cognitive:** suggests a theme and supports dramatic play, which stimulates language and communication skills.

## Sand scoops panel

**Physical:** hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation with two sides and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

## Desk with conveyor belt

**Physical:** tactile stimulation from running hands over rolling spheres on conveyor belt. **Social-Emotional:** sharing and cooperation from both sides create a social scenario that supports communication and cooperation. **Cognitive:** supports dramatic play scenarios, trains cause and effect understanding.

PCM001621

Panels are available in two different materials: 19 mm EcoCore™ HDPE or impregnated and brown painted pine wood. EcoCore™ is a highly durable, ecofriendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material. Pine wood boards are embedded in stainless steel frames.

Main posts with hot-dip galvanized steel footing are available in different materials: Pressure impregnated pinewood posts. Pre-galvanized inside and outside with powder-coated top finish steel posts. Lead-free aluminum with color anodized top finish. Greenline TexMade posts of 100% post-consumer recycled PE and textile waste.

All decks are supported by uniquely designed low-carbon aluminum profiles with multiple attachment options. The grey-colored molded decks are made of 75% post-consumer ocean waste PP material with a non-skid pattern and texture surface.

Item no. PCM001621-0601	
Installation Information	
Max. fall height	0'0"
Safety surfacing area	0ft²
Total installation time	5.5 hours
Excavation volume	0.13yd³
Concrete volume	0yd³
Footing depth (standard)	2'0"
Shipment weight	233lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
Post	10 Years
PP Decks	10 Years
Spare Parts Availability	10 Years

Roof is made from rotomolded PE. PE has high impact resistance across a wide temperature span that ensures durability.

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCore™ panels of 100% post-consumer recycled ocean waste.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

# Sustainability Data

PCM001621

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
PCM001621-0651	140.70	1.35	75.17
PCM001621-0601	165.92	1.88	65.29

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
