 It makes children loop uphill and slide down again and again. The Embankment Slide will be a main attraction in the playground. Apart from the immense thrill of sliding, the Embankment Slide also helps children develop essential motor skills such as a sense of balance and space. These are important in
managing the world confidently and securely The repeated loop of sliding and running back up for one more go is excellent cardio and muscle strength training. Gaining the courage to go down the tall slide adds a sweet sensation of achievement. This is a socialemotional benefit, further enhanced by the cooperation and turn-taking skills of children
going down the slide together. The width allows for that and will enable caregivers to join the play.
