

# Leg Press Pro

FAZ603

Bring strength training outside with KOMPAN's outdoor leg press machine. Offering adjustable load, adjustable seat, and large footplate, the machine facilitates individually adapted exercises that strengthen hip extensor, knee extensor and ankle muscles in a horizontal forward movement. With adjustable resistance up to 130kg, the outdoor gym leg press

delivers a progressive lower body strength workout to suit both beginners and athletes alike. The ergonomic design delivers a comfortable exercise experience for users of various shapes and sizes, making KOMPAN's outdoor leg press machine perfect for communal areas. Built from hardwearing materials, the outdoor gym leg press can

withstand harsh climates, vandalism attempts and excessive use. The result is a state-of-the-art outdoor leg press machine that will continue to bring value for years to come.

Item no. FAZ60300-0001	
General Product Information	
Dimensions LxWxH	162x236x214 cm
Age group	13+
Play capacity (users)	1

The cover protects all the moving parts from vandalism and entrapments. The cover is made of 5mm rotomolded LLDPE, Linear low-density polyethylene, with excellent impact strength and usable within a large temperature span.

The resistance unit and all mechanical stops are hidden in the fully closed cabinet. As a result, entrapment is not possible, making it extremely safe to use and providing protection against the elements. The products are EN 16630 certified and comply with the ASTM F3101 for unsupervised outdoor fitness equipment.

The input shaft is Ø101,3 x 2,9mm S355 Hot Dip Galvanized and Powder-coated steel. The bearing house is Cast Aluminum (EN AB-44100 / EN AB-AISI12(a)) with self-aligning sealed ball bearings. An extremely strong and durable construction.

Item no. FAZ60300-0001	
Installation Information	
Max. fall height	63 cm
Safety surfacing area	20.5 m²
Total installation time	11.4 hours
Excavation volume	0.00 m³
Concrete volume	0.00 m³
Footing depth (standard)	0 cm
Shipment weight	771 kg
Anchoring options	Surface ✓
Warranty Information	
Hot dip galvanised steel	Lifetime
Movable parts	2 years
PUR components	10 years
ROSTA element	2 years
Spare parts guaranteed	10 years

The footplate is made from Stainless Steel this provides good protection against corrosion. The plate also has an Anti Slip texture for optimal grip.

The seat and head support are made of Polyurethane Rubber and have a steel insert plate that connects it to the steel frame. The seat is adjustable in 14 different settings to fit users from 140/ 205 cm tall and to vary the type of exercises. The seat is positioned under a 12-degree angle and the back supports a 48-degree angle. The back support has a groove, accommodating a comfortable position.

The 130kg weight stack is fully covered and can be adjusted with a rotatable handle in 12 steps of 10 kg. The smart selector system is intuitive in use and patent-pending. No pins that get lost or get stuck, you simply pull and rotate the handle to select a different weight.

# Sustainability Data

FAZ603

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
FAZ60300-0001	2,055.39	3.56	44.80

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Verification of CO<sub>2</sub> calculation of: Fitness

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Fitness" represented by item no.: FAZ10100-0900.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
