

Architectural drawing showing a side elevation of a building facade. The facade features a large, multi-story section with horizontal slats or louvers. Below this section, there are vertical elements, possibly columns or a screen, and a small, angled structure at the base. A vertical dimension line on the left indicates a height of 287 units.

**287

Architectural drawing showing a side elevation of a building facade with a gabled roof. The facade has a central vertical element and is flanked by vertical panels. A horizontal line is drawn across the facade, and a vertical dimension line below it indicates a height of 48 units.
