The Sand Desk with Seats immediately attracts and welcomes infants and toddlers with its age appropriate size and sweet floral theme. The desk provides an ergonomically perfect place to work with loose parts, together with friends or caregivers. The yellow bowl is a perfect container for materials. It can be lifted and emptied, a favorite activity for young children.

The Sand Desk with Seats encourages social play: the three seats are placed to ensure eye contact. Adults can sit on the table to informally or formally guide the play. The Sand Desk with Seats offers toddlers an opportunity to break out from the wilder action in playgrounds. This respite adds to the time they can spend in play. It gives the chance to watch and be inspired by

peers in the playground, and to socialize and make friends.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
