

Playhouse with Outside Desk

PCM001821

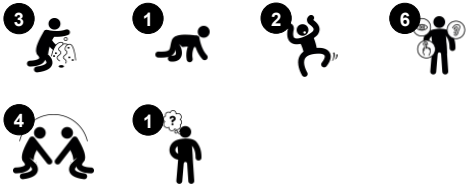

This activity packed, home-themed playhouse will attract and excite toddlers again and again. There are several features that greatly increase play value; the scale of the house is perfect for toddlers, the flower window adds to the overall transparency so that children can play together from the outside and the inside of the house and the shop counter desk features a conveyor

belt made of small wheels, providing a great tactile sensation. The driving panel features a steering wheel creating dramatic play and the crawl-through panel encourages children to crawl and explore. These activities stimulate cross-modal perception, important for improving reading skills and support cross-coordination awareness which is key to

physical and cognitive development at this age.
