

Swing, 10 ft H

KSW92005

Of all the play activities, swinging is a favorite: children love it, as it can be done individually and together. This swingset supports the play joy of doing the same thing at the same time, featuring two similar swing seats. The seats are shaped with a slight curve in the middle, to facilitate the secure seat position for a wide age span. This creates a great place to play for

all ages, for hours and even days. Apart from being great fun, swinging trains the children's ABCs: agility, balance and coordination as well as their spatial awareness. These motor skills are crucial to being able to judge distances and navigate traffic safely. Swings allows for standing sitting, lying – and even jumping off. Apart from the motor skills training, this

develops the arm, leg and core muscles. Jumping off builds bone density – the majority of which is built up during the first years of life.

Item no. KSW92005-0910

General Product Information

Dimensions LxWxH	11'10"x6'9"x10'0"
Age group	2 - 12
Play capacity (users)	2

Swing, 10 ft H

KSW92005

Two single swing seats

Physical: balance, coordination and spatial awareness are trained when swinging. All necessary when judging distances and managing traffic safely. The swinging movement trains the arm, leg and core muscles. **Social-Emotional:** parallel play invites cooperation and consideration. **Cognitive:** cause and effect and thinking skills for younger children. Rules games for bigger children, when swinging in same or different rhythm.

Swing, 10 ft H

KSW92005

Vertical posts of hot dip galvanized steel or powder coated on pre-galvanized steel base. Swing frame end connectors and crossbeam of hot dip galvanized steel or powder coated on hot dip galvanized steel base.

KOMPAN heavy duty designed swing hangers of stainless steel with anti-twist function. The hangers are attached to the cross beam on a welded bracket with two bolts. The bearings are embedded with silicone lubricant and needs no further lubrication.

KOMPAN designed the bird's nest seats to be light in weight and in compliance with global safety standards. The soft, shock absorbent bumpers with non-slip surface makes the swing seat extremely user friendly. Choose between a rope version with reinforced PA rope or a molded PE version. Both equipped with soft rubber bumpers.

The standard seats of KOMPAN swings is engineered for maximum safety and durability. The seat two component seat with a PP inner core and outside rubber is produced in one operation. The seats are available with swing chains of either hot dip galvanized steel or stainless steel for all swings heights.

The swing hangers are made of high quality UV-stabilized nylon (PA6) housing with integrated lifetime sealed ball bearings. The height adjustable chains are fixed by a stainless steel hook with theft proof snake-eye bolt in a turn able anti twist housing. All seats with two chain fixation are available with either standard or anti-wrap suspension.

Unique designed seats for toddlers: Baby seat of rubber. Toddler seat of PUR with four chain suspension for easy movement. Cradle seat. You & Me swing seat for adult/child or children of different ages to swing together while facing each other.

Item no. KSW92005-0910	
Installation Information	
Max. fall height	9'7"
Safety surfacing area	630ft ²
Total installation time	4.9
Excavation volume	1.46yd ³
Concrete volume	0yd ³
Footing depth (standard)	2'11"
Shipment weight	435lbs
Anchoring options	In-ground ✓
Warranty Information	
Chains	10 Years
Spare Parts Availability	10 Years
Steel post HDG	Lifetime
Swing hangers	5 Years
Swing seat	10 Years

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
KSW92005-0910	486.11	3.21	46.00

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
