This gorgeous coloured hut invites younger children who want to learn and play. It encourages themed and imaginative play, which is great for social activities and games on the side benches. The small window encourages games of hide and seek for endless laughs. The hut is made of natural Robinia timber, which provides an organic

structure, that can either blend into or stand out from your surrounds. Children can touch and feel the timber, observing how nature inspiration interacts with the built environment. This hut can also be placed close to other structures due to it's ground level play.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
