The Crocodile Bench is the playful solution for young children to rest during play time. They will delight in this friendly but fierce character, that will support their active play too. The crocodile supports social-emotional, as well as physical skills for young children. The intentional design helps children to stay and play, which provides developmental benefits as

well as a lot of fun! In addition to being a place to sit alone or with friends, the Crocodile supports social-emotional development, and friendship skills. The small holes stimulate exploration and provide children with opportunities to play peek-a-boo and other games. Infants will also enjoy moving around the Crocodile, and pulling themselves up to

stand, they learn important physical skills such as coordination and muscle strength.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
