The Super Gym L is a dynamic fitness unit that provides 360-degrees of activities in a square structure. It has a built-in workout challenge that starts with the overhead ladder, moves through the turbo wheels, and ends with the snake bar. Additionally, this unit has a low bar, incline press, target shoot, climbing ropes, rings, and jumping platforms. Compared to the

number of activities, the Super Gym L's footprint is minimal, allowing it to fit in compact areas. It can be used for school PE classes, group training, and many other types of structured workouts.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
