Outdoor Furniture plays an essential role in our communities by adding an inviting and social atmosphere, a place to meet, socialise or rest. Anita is classic and comfortable park furniture that invites citizens to take a seat and relax. They blend into and enhance public areas like parks and playgrounds etc. Anita Round Table is a freestanding table that can be combined

with Anita chairs. Grouped furniture around a table offers countless possibilities for use.

Anita Round Table

PAR1062

Bench is made of pine wood from sustainable European sources. The wood is pressure impregnated Class 3 with Tanalith E.

Steel internal surfaces are hot-dip galvanised, and the outside surfaces are lead and zinc free. Galvanisation has excellent corrosion resistance within outdoor environments and requires very little maintenance. Painted steel parts are hot-dip galvanised and then powder coated.

Galvanisation is manufactured with a two-step process which includes light grinding and clean sweeping, which is then finished with a top powder coating to 70-120 µm thickness.

The benches and tables can be combined in multiple settings by choosing individual products or assembled into larger solutions. See catalogue pages for more inspiration.

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
