<b>General Product Information</b>	
Dimensions LxWxH	300x150x90 cm
Age group	3+
Play capacity (users)	
Item color	●

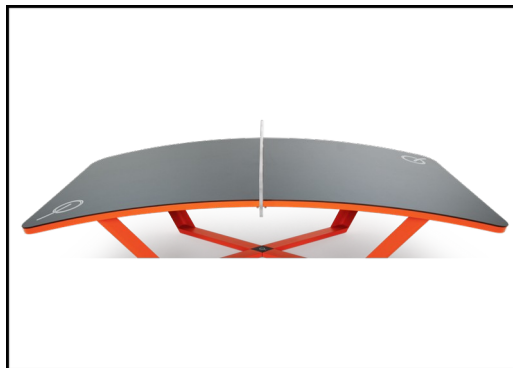

# Teqball Table

TPP30203

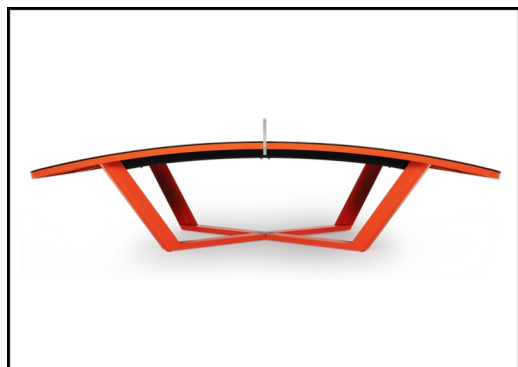

The table is made from weatherproof, waterproof, and UV-resistant HPL (high-pressure laminate) material.

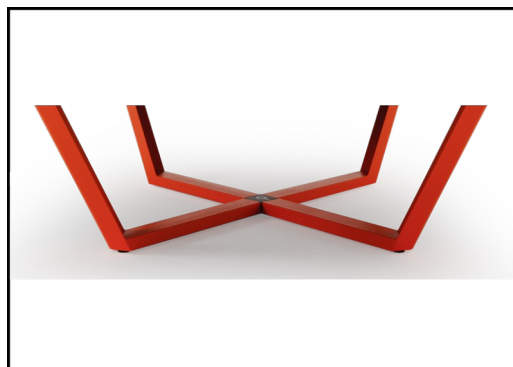

The curved surface helps the ball bounce to the players' feet, making the game more enjoyable compared to playing on a horizontal table.

The table includes a transparent net made of acrylic glass (PMMA) with a height of 14 cm, separating the playing surface into two parts. The transparent net gives full visibility of the ball movement, so players can prepare and anticipate the ball bounce better.

The table rests on a leg structure made of structural steel, which is cathodic dip-coated and powder-coated to ensure corrosion resistance.

The table can be anchored directly into asphalt or concrete, using galvanized hexagon screws and drop-in anchors, ensuring stability during play.

Item no. TPP30203

## Installation Information

Total installation time	0.0
Excavation volume	0.00 m <sup>3</sup>
Concrete volume	0.00 m <sup>3</sup>
Footing depth (standard)	0 cm
Shipment weight	225 kg
Anchoring options
