This large chalkboard will support hours of play and learning in an outdoor learning environment or playground. The large space is plenty for many children to join in the mark making and drawing, which will help them to develop fine motor skills when drawing, and language and literacy skills when making signs. The large size supports social play, because

there is plenty of room for interaction and cooperation. Chalkboards can have direct benefits for learning, and they also enhance a variety of dramatic play scenarios, from playing school to making a sign for treasure hunting games. There are cognitive benefits to drawing and leaving your mark, because it stimulates brain development, creative thinking and thus
