

# Duo Swing Seat, H:3.0m

SW990202

Item no. SW990202-00	
General Product Information	
Dimensions LxWxH	70x80x232 cm
Age group	2+
Play capacity (users)	2
Colour options	

There is nothing quite like swinging. The Duo Swing Seat adds to the joy by making it possible to swing at eye level with your best friend. The sturdy handholds of the Duo Swing Seat add the possibility of vigorous swinging movements. At the same time, they add to the feeling of security. Swinging on the Duo Swing seat is more than mere fun: the swinging

movements train the child's spatial awareness and sense of balance. Well-trained senses of balance and space help children navigate the world securely and add to their self-confidence. Swinging together on the Duo Swing Seat adds tons of social-emotional benefits to the ride: Children learn cooperation and turn-taking when swinging together. Furthermore, they

need to adjust their rhythm in movement. These are great skills in play as well as in making friends.

## Grip bars

**Physical:** height and diameter to support grips of sizes from toddler to grandparent.

**Social-Emotional:** feeling of security when being able to hold onto properly proportioned grip.

## Swing seats

**Physical:** balance and spatial awareness are stimulated by swinging. These are necessary skills in judging distances. **Social-Emotional:** the cooperation in movement of swinging together trains teamwork understanding and empathy. **Cognitive:** 'Cause and effect' understanding, managing rhythm and thinking skills for younger children when swinging.

KOMPAN's swing hangers are heavy-duty and designed with stainless steel and anti-twist functions. The hangers attach to the cross beam on a welded bracket with two bolts. The bearings are embedded with silicone lubricant and need no further lubrication; ensuring low maintenance.

The Duo Swing Seat is fitted with 6mm stainless steel chains.

The frame is powder-coated inside and the outside is hot-dip galvanised steel.

The Duo Swing Seat can be installed on KOMPAN A-Frame, Robinia Frame and Portal swing systems for the heights 2.5 and 3.0. The swing seat is not applicable for 2.0.

All soft seat materials are UV and ozone protected to create a durable solution which is suitable for any climate.

The baby seat is made of black TPV (Santoprene), and the uniquely designed larger leg holes allow for an easy transition to and from the seat

Item no. SW990202-00	
Installation Information	
Max. fall height	160 cm
Safety surfacing area	15.5 m²
Total installation time	0.3
Excavation volume	0.00 m³
Concrete volume	0.00 m³
Footing depth (standard)	0 cm
Shipment weight	25 kg
Anchoring options	
Warranty Information	
Chains	10 years
Galvanised/painted metal	10 years
Movable Parts	2 years
Spare Parts Guarantee	10 years
Swing Seat	10 years

# Sustainability Data

SW990202

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
SW990202-00	50.53	3.24	37.52

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
