The countless play activities of the Cutter and Fish Shop play unit inspire children to play and imagine together, for long, again and again. The many explorative play features such as play panels with sounding gearing wheels, climb-through dense and the funnel leading to the treasure box all inspire countless dramatic play scenarios while stimulating them to

explore the many tactile, moving play features. The explorative and creative play from the wheels play panel intrigues children's creativity and builds their understanding of cause and effect. Often they spur make-believe play such as shop or cutter. This makes children play together, learn turn-taking and empathy and make friends.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
