Cradle Seat, H:2.5m

SW990026

Item no. SW990026-00	
General Product Information	
Dimensions LxWxH	62x31x0 cm
Age group	1+
Play capacity (users)	1
Colour options	

The classic Cradle Seat Swing is an irresistible invitation for infants and their care givers. The swinging motion of the Baby Seat Swing will make infants want to go again and again. There are several benefits of the attraction: firstly, the swing seat supports the seated infant all around so that the feeling of security is guaranteed. Secondly, the swinging motion trains the child's motor skills, specifically the sense of balance and space. Being seated while swinging also trains the core muscles. All of these physical skills are fundamental to the infants ability to walk and navigate the surroundings securely. The action also stimulates the understanding of cause and effect and thinking skills. Socially, swinging and getting pushed in the swing seat by parents, care givers or siblings is great fun.

Cradle Seat, H:2.5m

SW990026

Cradle seat
Physical: balance, coordination and spatial awareness are developed when swinging. These are necessary skills for judging distances and navigating. **Social-Emotional:** the rhythmic movement can have a calming effect on young children. **Cognitive:** understanding of 'cause and effect'.

Cradle Seat, H:2.5m

SW990026

The seat base plate is made from EPDM rubber and has excellent heat and abrasion resistance.

The seats and swing heights are available with either, hot-dip galvanised steel or stainless steel chains.

Item no. SW990026-00	
Installation Information	
Max. fall height	145 cm
Safety surfacing area	13.9 m²
Total installation time	0.2
Excavation volume	0.00 m³
Concrete volume	0.00 m³
Footing depth (standard)	0 cm
Shipment weight	9 kg
Anchoring options	
Warranty Information	
Chains	10 years
EPDM Components	2 years
Spare Parts Guarantee	10 years

AS 4685 compliant

Sustainability Data

SW990026

Cradle to Gate A1-A3	Total CO_2 emission	CO_2e/kg	Recycled materials
	kg CO_2e	kg CO_2e/kg	%
SW990026-00	24.39	2.95	21.82

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO_2 calculation method
BUREAU VERITAS
HSE Denmark A/S

Verification of CO_2 calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
