Forest Cottage

NRO408

| Item no. NRO408-0621 | | | | |
|-----------------------------|----------------|--|--|--|
| General Product Information | | | | |
| Dimensions LxWxH | 262x189x292 cm | | | |
| Age group | 2+ | | | |
| Play capacity (users) | 8 | | | |
| Color options | | | | |

The Forest Cottage evokes the play urge in all children with its curved roof and a nice desk and bench inside. They will come back for more play again and again. The dramatic play scenarios of the house know no limits: there is room for continued role play that children will return to again and again. The desk and bench inside will stimulate breaks and function as table, too. The stair and slope in and out the house makes varied accesses that stimulate both crawling and climbing. This trains crosscoordination, that is fundamental to the ability to e.g. read. When children do dramatic play, they play out an understanding of everyday scenarios, negotiating through their life observations. While doing so, they constantly talk and communicate with their peers, thus hugely stimulating language skills and thinking skills.

Forest Cottage

NRO408

Slope Physical: inclined crawling or walking up or down develops the sense of balance and cross coordination. Social-Emotional: the inclination makes climbing feel secure, especially for younger children.

Stairs

Physical: cross coordination is used, supporting the cooperation of the left and right halves of the brain, which is necessary for reading. For young children, spatial awareness is trained when walking stairs.

Window Social-Emotional: invites interaction between sides and cooperative play.

Supportive handholds

Physical: handhold provides good grip for less confident climbers. Pulling yourself up and in trains upper body muscles. Social-Emotional: allows for a range of physical abilities to enter independently and securely, supporting play for all.

Theme Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Bench Social-Emotional: invites socializing and

cooperation. Allows for a break with friends.

Forest Cottage

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

KOMPAN

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

| Item no. | NRO408-0621 |
|----------|--------------|
| nonn no. | 11100 1002 1 |

Installation Information

| Max. fall height | 48 | 8 cm |
|--------------------------|-----------|------|
| Safety surfacing area | 22. | 8 m² |
| Total installation time | | 13.7 |
| Excavation volume | 0.4 | 6 m³ |
| Concrete volume | 0.0 | 0 m³ |
| Footing depth (standard) | 60 |) cm |
| Shipment weight | 84 | 0 kg |
| Anchoring options | In-ground | ~ |
| | Surface | ~ |
| | | |

Warranty Information

| Hot dip galvanised steel | Lifetime |
|--------------------------|----------|
| Robinia wood | 15 years |
| Ropes & nets | 10 years |
| Spare parts guaranteed | 10 years |

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

Sustainability Data

NRO408

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO₂e/kg | Recycled materials |
|----------------------|--------------------------------|------------|--------------------|
| | kg CO₂e | kg CO₂e/kg | % |
| NRO408-0621 | 167.98 | 0.26 | 2.15 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
