WOW – this Play Tower and Overhead Ladder offers an appealing variety of climbing and gliding. The graded challenges and thrilling play activities will make children engaged for a long time. There are variations of climbing in a little space: inclined, through meshes, up and over. This ensures a varied training of the big muscle groups. It additionally trains awareness

and cross-coordination immensely. These are important motor skills that help build the brains ability to read. It also supports the confidence in navigating the body securely, e.g. in traffic. For more thrills, the tower offers a Fireman's pole ride. The Overhead ladder trains children's upper bodies and backs, great training for sedentary children. Under the platform an

inviting space with bench and a time measuring detail activity for meetings, turn-taking and socialising.

Fireman's pole

Physical: coordination is supported when going down, as well as arm and core muscles. Landing strengthens bone density, which is built for life in early childhood. **Social-Emotional:** turn-taking and risk-taking.

Climbing net

Physical: children develop cross-body coordination and muscle strength. The asymmetry of the net challenges the children's climbing and crawling through. **Social-Emotional:** the big meshes allow for more children seated together, sharing.

Overhead ladder

Physical: develops children's upper body muscles and arm strength, cross coordination and spatial awareness. This is especially important due to sedentary lifestyles and back-pain in children. **Social-Emotional:** chill and socialize on top of the overhead ladder, training cooperation.

Pipe ladder

Physical: cross coordination and eye-hand coordination are supported when children climb the ladder. The climbing also supports leg and arm muscles. **Social-Emotional:** learning about turn taking and cooperation.

Bench

Social-Emotional: gathering, cooperating or taking a break from play - all train social skills.

Timer

Social-Emotional: teams can each have a button to measure rounds, wins etc. The buttons support cooperation and teamwork. **Cognitive:** counting and registering support thinking skills such as logical thinking and sequencing. **Creative:** children can leave their mark, placing the timer in different positions.

Rapella

Physical: supports cross coordination, proprioception and sense of space. Leg and core muscles are used intensely. Upper body muscles are developed when children pull themselves upwards in the rope. **Social-Emotional:** turn-taking and self-regulation, both important life skills.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
