The Hangout Tree with Hideaway is an intriguing play unit which attracts children to play over and over. The beautiful tree offers fun climbing and social play options: children can access the platform with fireman's pole and slide either taking the stairs or the climbing wall. The height of the platform makes for an attractive play destination and lookout.

Climbing is a favourite play activity, and it trains children's cross-coordination and muscles and builds fundamental movement skills that positively affect cross-modal perception and learning. Sliding, and not least gliding down the fireman's pole, apart from being a thrill, trains children's sense of balance and space, as well as their core muscles. At and under the play

platform of the Hangout Tree with Hideaway, nice, varied hammocks invite socialising and offer a break from climbing.
