

# Embankment Slide, 3.0m high, 2.0m wide

KSL30904

Item no. KSL30904-0401

## General Product Information

Dimensions LxWxH	525x204x397 cm
Age group	3+
Play capacity (users)	2
Color options	●

The extra wide Embankment Slide is extremely attractive. It makes children loop up hill and slide down again and again. The Embankment Slide will be a main attraction in a playground. Apart from the immense thrill of sliding, the Embankment Slide also supports children in developing important motor skills such as the sense of balance and space. These are

important in managing the world confidently and securely. The repeated loop of sliding and running back up is great training of cardio and muscle strength. The extra width adds a highly desirable rough-and-tumble element to play, when friends go down the slide together. This is a social-emotional benefit, which is further enhanced by the cooperation skills that

children use when slide together.

Data is subject to change without prior notice.

KSL30904

## Wide slide

**Physical:** sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** invites socializing, supports parent-child and peer-to-peer play.

**Cognitive:** young children develop their understanding of space, speed and distances when sliding down quickly.

KSL30904

The stainless steel components are made of high quality stainless steel in compliance with global playground standards. The steel is glass blasted after manufacturing to ensure a smooth gliding surface.

At 35°, the slide is set to the optimum angle to ensure both gliding fun and safety.

Catering to different terrains, the embankment slides are available in 9 lengths from 1 - 3m.

Item no. KSL30904-0401

## Installation Information

Max. fall height	100 cm
Safety surfacing area	34.3 m <sup>2</sup>
Total installation time	11.0
Excavation volume	1.49 m <sup>3</sup>
Concrete volume	0.95 m <sup>3</sup>
Footing depth (standard)	110 cm
Shipment weight	751 kg
Anchoring options	In-ground ✓

## Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

<b>Cradle to Gate A1-A3</b>	<b>Total CO<sub>2</sub> emission</b>	<b>CO<sub>2</sub>e/kg</b>	<b>Recycled materials</b>
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>KSL30904-0401</b>	1,598.04	4.20	49.98

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3)
