The Robinia Percussion Music Panel is an immense play invitation for children: the variation in drumming sounds and the tonal response to movements attracting children again and again. The drums can be played alone or together. There is room for many users to congregate around the differently textured and sounding drums. This encourages

social interaction and co-creation when drumming rhythms and singing along. It also stimulates cognition and creativity as children create rules and rhythms together or individually. The percussion drum additionally has different sounding divisions. For older children and adults this creates variations in tonality and sound patterns. Drumming and

creating rhythms on the drums stimulate the child's ability to understand cause and effect and leave a mark on their play, both important for cognitive as well as creative skills.

Percussion

Social-Emotional: cooperative play and co-creation when playing from both sides.

Cognitive: understanding cause and effect when figuring out different sounding areas of surface, and practicing with rhythm, that is essential for pre-reading skills. **Creative:** creating, combining and leaving a mark of different sounds.

Two sides

Social-Emotional: invites cooperation and communication. The low height and the transparency of the panel makes interaction possible between the two sides.

Drums

Social-Emotional: cooperation and co-creation, parallel and group play. **Cognitive:** cause and effect understanding when creating sounds, supporting a sense of rhythm, that is essential for pre-reading skills. **Creative:** creating and leaving a mark with sound.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
