The play unit offers many levels of play: from the inclined climbing net up to the lower platform, from which the child can take the stomach-tickling slide down to the ground or enjoy the rotating movement of the Curly Climber back to the ground. An alternative route is to venture onto the wackle bridge, using the full physical concentration on

balancing to the platform of the stairway. The second half leads to the roomy top of the mega deck, perfect for groups to socialise and play on an elevated level, from which they can choose their way to the ground on either, a curved, bumpy slide or a dare devil pair of banister bars at full speed. An alternative route up to the mega deck platform is up the curved

tower net where climbing will challenge the physical and coordination skills. Under the platform a nice seat and a rocking hammock makes a meeting point for all.
