The Agility Trail 8 is a challenge that all 6-12 year olds will want to take on. The variation in climbing, crawling, balancing and meeting activities will make children come back again and again. The combination of overhead and balance activities, swaying nets and ropes offer great play challenges. Climbing or crawling up, down and through the Agility Trail 8 stimulates

agility, balance and coordination. These motor skills are necessary to managing the world securely and achieving physical confidence. The swaying seat points and the horizontal beams are great for meeting and exchanging. The many ropes and their bouncy character make them a constant balance and muscle trainer, even when seated. When climbing

through the Agility Trail 8 children train their cooperation, negotiation and turn-taking skills.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Nets and ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated in order to create a strong connection between steel and rope which leads to good wear resistance.

The teardrop handle has been designed in such a way that it can be used as a handle and a footrest. The shape and diameter of the handle is optimal for kids.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
