The Mini Car signals play loud and clear and attract infants and toddlers again and again. The cute rounded shapes and the vibrant colours attract. And the manipulative steering wheel, gear, and yellow headlight spheres can be handled and turned again and again. The car has three compartments, two of which are relatively open to the front and rear directions.

They both offer ample seating, and the rear also features two tinkering tables. The themes of traffic and cars are well-known to toddlers. They take a starting point in the toddlers' near world and open the scope of going into the wider world. Dramatic play scenarios such as visiting family are played out repeatedly in the Mini Car. This is an important contribution to

the development of language skills and literacy.
