

Oasis Gravel Pit

NRO535

The Oasis gravel pit is a wildly engaging play unit that will attract children for hours of construction play. With two sand cranes and sand tables both on ground level an elevated level, the stage is set for cooperative play, helping to develop social-emotional skills. The cranes are worked horizontally as well as vertically either by turning the grey plate or

pulling the chain. The sand bucket will stay put when the chain is let go. In addition to providing fascinating sand play, this is a great training of children's logical thinking skills. The negotiation and cooperation of moving sand helps develop social-emotional skills. Plus, a lower platform with sand scoop allows small children to enjoy dramatic and explorative play.

This stimulates children's language development and cognitive-creative skills as well as their fine motor skills.

Item no. NRO535-1021	
General Product Information	
Dimensions LxWxH	14'8"x11'5"x11'1"
Age group	2 - 5
Play capacity (users)	25
Color options	

Oasis Gravel Pit

NRO535

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The handholds on top ease entry into platform. **Social-Emotional:** the incline makes climbing feel safer, especially for younger children.

Sand shovel

Physical: develops dexterity and upper body muscles. **Cognitive:** understanding of object permanence, emptying and filling scoop.

Sand desk with funnel

Social-Emotional: children can gather and store materials, cooperate and take a break together. **Cognitive:** sand can be shifted through the funnel, for understanding of cause and effect and object permanence: that materials don't vanish but run through at the other end.

Sand crane

Physical: hoisting the basket up and down trains arm muscles and dexterity. **Social-Emotional:** cooperating with others as in receiving the bucket trains cooperation skills. **Cognitive:** understanding the mechanism of the chains hoisting buckets up and down supports logical thinking skills. **Creative:** working with moveable play items that can leave a mark supports the child's creativity.

Sand desk with bowl and sieve

Social-Emotional: children can gather and store materials, cooperate and take a break together. **Creative:** sand can be shifted through the sieve, for understanding of cause and effect and object permanence.

Sand wheel

Cognitive: the turning sand wheel stimulates cause and effect understanding.

Lower platform

Physical: climbing up, jumping down develops muscle and motor skills such as coordination, which are important in navigating your body securely through the world. **Social-Emotional:** children can sit and talk together. The step helps children who need extra height to maneuver the tap and water channel.

Oasis Gravel Pit

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia products are designed with a KOMPAN color concept with a number of different standard colors. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood color.

Item no. NRO535-1021	
Installation Information	
Max. fall height	2'11"
Safety surfacing area	485ft²
Total installation time	28.1
Excavation volume	1.19yd³
Concrete volume	0.25yd³
Footing depth (standard)	3'3"
Shipment weight	2591lbs
Anchoring options	In-ground ✓
Warranty Information	
Robinia Wood	10 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years
Stainless steel components	Lifetime
Stainless steel components	Lifetime

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO535-1021	468.13	0.46	4.73

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
